

House in bio materials

Mission:
Presentation of the **different bio materials** and **stages** in house **building**.

objectives:
to **display** the different **materials** used in the house.

Constraints:
breaking down the presentation into several important **construction stages**.

Strengths:
- realistic views.
- materials easily reecognizable.

Client:
Ad'air (Belgium): Company specialised in house construction with ecological materials, health and environment respectfull.
